SPIDER PARCOURSE

by LUCA team

The activity

Can a corridor become an obstacle course? Sure! Take some coloured yarns and transform it into a spider parcourse!

Usually, the corridor is just a space we use to go from one room to another one...it doesn't really look like a place where to spend a lot of time. And a spider parcourse? Oh, this is a much more fun space, it's an obstacle course that you can go through several times without ever getting bored!

SPIDER PARCOURSE

by LUCA team

Experience space!

How to create and change the way to experience space is a task for architects. They can transform a corridor in a beautiful promenade. In such projects, the corridor becomes THE SPACE to be explored, the most interesting one!

Even light modifications, such as adding a yarn, can completely change the way we perceive space and the time we want to spend inside it. So, let's play and have fun transforming a corridor in a spider parcourse. Not enough? Go outside and make it even bigger in a garden or park!
